

Haynes McFadden

Artist's statement

I take my camera and I go out, seeing something I wish to capture and share with others. When I return home I process the pictures making any enhancements I reason thoughtfully on the original object and then I make the truest reproduction I can. This I offer as what I wish to share with my viewer.

Profile of the artist

Haynes is self-taught both in photography, graphic arts and in computers. He joined the Professional Photographers of America in 1981 and has never looked back. His work has sold around the world.
